

STEPS STEPS

For Creating a Sampler

STEP ONE:

Log onto: <http://www.filamentality.com>

Click on: "Start a New Topic"

Beside Your Name, fill in: _____

Beside the Password, fill in: think

Click on "Spin this Thing!"

Click on "Add Links"

STEP TWO:

Using the links from the Fact Sampler assignment web page, copy/paste the URLs in the location box. Give each one a title and a short description.

Every three links you will need to click on "Add Links". This will save the links. Never press the 'Back" button.

When you are done adding links press the "Sampler Button".

STEP THREE:

Under each link, add 2-3 questions. The answers to these questions will be found on this web page. Include a mixture of fact and application type questions. Remember that the answers must be found somewhere on the connecting URL.

When you are done, add an introduction (erase the introduction that is there) and a conclusion (for an idea, look at the one already there).

STEP FOUR:

Press "Sampler" and your finished Internet Sampler will appear, along with the URL. You can edit your work by pressing "Edit Links". Never press the "Back Button".
